Barrel

Vibrating bowl

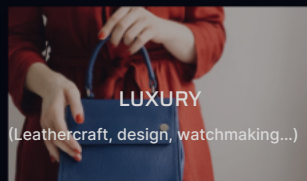

## Our main application sectors

ENERGY TRANSPORTATION

MEDICAL

LUXURY

(Leathercraft, design, watchmaking...)

# Why work with GILOR?

GILOR is a family-owned company founded in 1952 and specialized in the electrolytic and chemical coating of precious and semi-precious metals.

We are ISO 9001 certified.

## Industrial craftsmen

Thousands of parts treated as if each one was unique

## Know-how & precision

Durable and efficient coating at the right price

## Committed to the environment

100% of effluents treated and water recycled

## In direct contact with the production

Rely on a reliable and reachable industrial partner

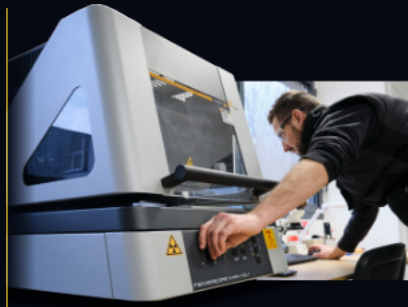

## They trust us

## A demanding continuous quality control.

We control 100% of the batches processed. No batch leaves the factory without having passed all the tests:

- Thickness control by X-ray fluorescence
- Control of the visual aspect
- Control of adhesion
- Other controls on request (thermal, saline environment,...)

## Record processing flexibility without compromise.

By keeping GILOR on a human scale, we have been able to maintain unparalleled agility in order to respond effectively to all your requests.

Micro-series to very large series

Adjustment of our schedules

Urgent treatment 48 h

Express delivery
